Press release

Bucharest, May 1st, 2018

Project launch

Institute of Research for Agricultural Economics and Rural Development, Bucharest, announces the start of the project COASTAL - “Collaborative Land-Sea Interaction Platform”

Project Coordinator:

VLAAMSE INSTELLING VOOR TECHNOLOGISCH ONDERZOEK N.V. – VITO, Belgium

Partners:

29 partners from 7 countries: Belgium, Greece, Sweden, France, Romania, Spain, Hungary.

General objective

The objective of COASTAL is to improve the rural-coastal synergies in strategic business and policy decision making and collaboration between coastal and rural actors. This will be achieved by developing, demonstrating and applying a generic toolset and performance indicators by combining a multi-actor approach with system dynamics modelling.

Specific objectives

1. In-depth conceptual understanding of coastal -rural interactions, on medium and long term;
2. Practical business and policy road maps and guidelines;
3. Generic tools for evaluation and comparison of business and policy solutions.

COASTAL
Collaborative Land-Sea
Integration Platform

Target Group:

- Business community activating in agriculture, fishery, rural tourism;
- Stakeholders, policy makers, local actors from the project area.

Institute of Research for Agricultural Economics and Rural Development, Bd. Mărăști nr. 61, sector 1, Bucharest, Romania
